**Subject:** JSN Business Officers Cohort Gathering in Tampa April 24-27, last-minute details

Dear Participants in JSN's Business Officers Cohort Gathering,

On behalf of your planning committee, we are looking forward to seeing you in just a few weeks in Tampa, Florida! As you know, our days together at the Hilton Tampa Downtown Hotel will begin on Tuesday, April 24<sup>th</sup> with a 5:30 pm social, and will conclude Friday April 27<sup>th</sup> about 12:15 pm after a visit to Jesuit High School. As you prepare for the time away from home and work, I offer a few last-minute details for your reference:

- Please be sure to check the "Communications and Materials" Tab on our [Business Officers landing page](#) on the JSN website, where we have posted all updated details of interest – to include updated agenda of our days together, as well as links to the hotel and our evening restaurants as well. Your planning committee really has a terrific week planned for you.
- Weather in Tampa right now is in the 80's during the day, and high 60's at night, which will be a welcome relief for those of us from places where it still feels like winter!
- For your packing, dress for our days will be Florida warm-weather business casual. You will see from the links to our evening events on the webpage, that the restaurants we will go to on Wednesday (a dinner cruise on Tampa Bay) and Thursday night (a historic Tampa restaurant) request business casual/resort casual wear (our understanding of this is no ripped jeans, tank tops and water flip flops, check out their websites for more detail!).

Your cohort gathering will be professionally enriching and informative, and also a lot of fun. So many of you have known one another for years, and this will be a wonderful chance to reconnect. Those of you that are new to the JSN will be welcomed into this great group of professionals who share similar work across the Network. We very much look forward to a great week together.

Safe travels, and see you in Tampa!

Best,  
Kristin Ross Cully
